WORK EXPERIENCE

Software Developer

SIDERALSOFT CIA LTDA

October 2023 - August 2024

I developed and maintained Orion, a key system for clinical laboratories in Ecuador. I implemented improvements and ensured its efficiency with technologies such as VUE, Laravel, PHP and PostgreSQL, meeting health sector standards.

Teaching

I.S.E.C.P Institute

June 2022 - April 2023

As a teacher in "Web Design and Development", I taught HTML, CSS, JavaScript and WordPress, guiding young people in the creation of websites with passion and commitment.

IT ANALYST INTERN

Ministry of Sport

March 2022 - May 2022

In my IT internship at the Ministry of Sports, I improved the system of citizen applications and designed successful visual arts, contributing with creativity and technique.
